01 — Profile: Martín Lavín / Martin Lavin

Who this person is

This document describes **Martín Lavín Carvajal**, also written without accents as **Martin Lavin Carvajal** or **Martin Lavin**. GitHub / portfolio handle: **MLavinc**.

All of these names refer to the same person:
- Martín Lavín Carvajal
- Martín Lavín
- Martin Lavin Carvajal
- Martin Lavin
- MLavinc

Location: **Santiago, Chile**.
Languages: Spanish (native), English (C1, Cambridge).
Certification: **AWS Certified Solutions Architect – Associate (SAA)**.

Short identity answers

Who is Martin Lavin / Martín Lavín / this person?
Martín Lavín Carvajal (Martin Lavin) is a final-year Computer Engineering student at Universidad Mayor in Santiago, Chile and an **AWS Certified Solutions Architect – Associate (SAA)**. He focuses on Cloud Engineering, Platform Engineering, Backend Development, AI-powered systems, and full-stack development. His long-term goal is to become a **Solutions Architect**.

Tell me about Martin / Tell me about yourself / Tell me about your background.
He combines a strong academic foundation in computer engineering with industry internship experience at Nestlé Digital & New Tech, teaching assistant work, SIMCE examiner experience, AWS-oriented personal projects, and research in medical imaging / machine learning.

Education

- University: **Universidad Mayor** (Santiago, Chile)
- Degree: **Ingeniería Civil en Computación e Informática** (Computer and Informatics Civil Engineering / Computer Engineering)
- Studies period: **2022 – 2026**
- Expected program completion / egreso: **late 2026** (fines de 2026)
- Expected professional title / titulación: **2027**
- Status: final-year / último año student

Where does Martin study? Universidad Mayor, Santiago, Chile.
What degree is Martin pursuing? Ingeniería Civil en Computación e Informática (Computer Engineering).
When will Martin graduate / When is Martin expected to graduate? He is expected to finish coursework around late 2026, with titulación expected in 2027.

Career focus and goals

Primary interests:
- Cloud Engineering
- Platform Engineering
- Backend Development
- AI systems / AI-powered applications
- Distributed systems architecture
- FinOps awareness

Long-term goal: become a **Solutions Architect**.

Experience summary

- **Nestlé Digital & New Tech** (2025) — professional internship focused on digitalization and automation (Power Platform, Power Apps, Power Automate, Python, SQL, SharePoint, Azure).
- **Universidad Mayor** (2023) — Teaching Assistant in mathematics subjects.
- **SIMCE / MINEDUC** (2024–2025) — standardized exam examiner.
- Personal portfolio projects in cloud, ML, RAG, and full-stack engineering.

Main projects

- Document Knowledge Agent (Document RAG Agent / DAG)
- Cloud Operations Lab
- ECG AI Serverless
- Skill Tracker
- ThermoSim (distributed numerical heat-equation solver on AWS)
- Undergraduate thesis / título project in medical imaging AI (in progress)

Core skills

Cloud & DevOps: AWS (Lambda, API Gateway, S3, EC2, IAM, VPC, CloudWatch, Aurora, ECS, Bedrock), Terraform, Docker, Linux, GitHub Actions.
Backend & data: Python, Go, FastAPI, SQL, PostgreSQL, pgvector.
Frontend: React, TypeScript.
AI / ML: embeddings, vector search, RAG, Scikit-learn, Keras / TensorFlow training exposure.
Automation / low-code: Power Apps, Power Automate, Power Platform, SharePoint, Azure.
Also familiar with Node.js/Express for API gateway patterns.

Certifications and learning

- **AWS Certified Solutions Architect – Associate (SAA)**.
- AWS Cloud Practitioner Essentials and continued AWS architecture learning.
- Google Cloud Academy: Feature Engineering; Build, Train and Deploy ML Models with Keras.
- Cisco Networking Academy: Networking Fundamentals; Cybersecurity & Ethical Hacking.
- HackerRank Go Programming Certification.

Research

Undergraduate thesis work with medical imaging researchers, applying Radiomics, Fractal Analysis, and Machine Learning / Deep Learning to clinical imaging, including robustness to domain shift.
